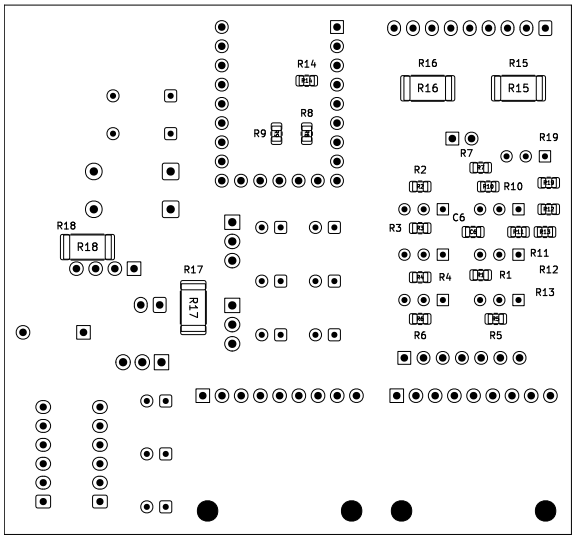
Clocks 0.1-review - bottom assembly

75 x 70 mm / scale 1:1 / viewed from below (mirrored)



Print at 100%; disable fit-to-page. Check the 50 mm bar.

50 mm

SMD on bottom; through-hole parts and modules on top.

CAN / GPS underside: 12 mm above carrier (proposed).

Parts under these modules: maximum installed height 8 mm.

Check actual module undersides, supports and cable access.

MCP9600 holes support modules; enclosure mounts are not defined.

Review placement and cooling before ordering a prototype.
